CMSC 436 Project: Sudoku Puzzle

Project Team 27

Ben Romalis

Ben Horton

Mateos O'Connor

We have accomplished our goals of creating the different screens (Main Menu, Sudoku Board, Settings, and Statistics). All of our screens will be used only in portrait mode as there is no need for landscape mode in any of the screens. We are currently working to add all the necessary buttons and position them properly on the Sudoku Board and Main Menu. After this, we will start working on all the logic and backend code.
